4. FIRST AID MEASURES

4.1 First Aid:

Ingestion: DO NOT INDUCE VOMITING. Contact ChemTrec at +1 (703) 527-3887 or the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim’s head lowered (forward) to reduce the risk of aspiration.

If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If the eyes or face becomes swollen during or following use, consult a physician or emergency room immediately.

Remove contaminated clothing and wash affected areas with soap and water. If discomfort persists and/or the skin reaction worsens, contact a physician immediately. In cases where discomfort persists and/or medical attention is sought, do not use hair color products again until the specific nature of the skin reaction and the causative agent has been identified by a dermatologist, and appropriate medical advice provided. Do not wear contaminated clothing until it has been properly cleaned.

Eyes: Do not wear contaminated clothing until it has been properly cleaned.

Skin: If face becomes swollen during or following use, consult a physician or emergency room immediately.

Inhalation: Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

| Eyes: | Moderately irritating to the eyes. Symptoms of overexposure may include redness, itching, stinging, irritation and watering. |
| Skin: | May be irritating to skin. The product can cause allergic skin reactions (e.g., rashes, welts, dermatitis) or sensitization in some sensitive individuals. |
| Inhalation: | May cause mild, transient respiratory irritation. Avoid prolonged contact with concentrated vapors or mists. |

### 4.3 Symptoms of Overexposure:

| Ingestion: | Nausea, intestinal discomfort, vomiting and/or diarrhea. |
| Eyes: | Overexposure in eyes may cause redness, itching and watering. |
| Skin: | Symptoms of skin overexposure may include redness, itching, and irritation of affected areas. The product can cause allergic skin reactions (e.g., rashes, welts, dermatitis) in some sensitive individuals. |

### 4.4 Acute Health Effects:

- Moderate irritation to eyes. Symptoms of overexposure may include redness, itching, stinging, irritation and watering.
- Moderate irritation to skin near affected areas.

### 4.5 Chronic Health Effects:

- No harmful or chronic health effects are expected to occur from a single accidental ingestion.

### 4.6 Target Organs:

- Eyes, Skin

### 4.7 Medical Conditions Aggravated by Exposure:

- Pre-existing dermatitis, other skin conditions, and disorders of the target organs (eyes, skin, and respiratory system).

### 5. FIREFIGHTING MEASURES

#### 5.1 Fire & Explosion Hazards:

This product is not flammable. However, if involved in a fire, this product may decompose at high temperatures to form toxic gases (e.g., CO, CO₂, and NOₓ).

#### 5.2 Extinguishing Methods:

- Water, Foam, CO₂, Dry Chemical

#### 5.3 Firefighting Procedures:

- Fight fires as for surrounding materials. Hazardous decomposition products may be released.
- Thermal degradation may produce oxides of carbon and/or nitrogen, hydrocarbons and/or derivatives. Firefighters should wear a MSHA/NIOSH approved or equivalent self-contained breathing apparatus (SCBA) and protective clothing. Fire should be fought from a safe distance.
- Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway.

### 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Spills:

Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

- For **small spills** (e.g., < 1 gallon (3.8 L)) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure all sources of ignition. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and washing thoroughly before reuse.
- For **large spills** (e.g., ≥ 1 gallon (3.8 L)), deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

### 7. HANDLING & STORAGE INFORMATION

#### 7.1 Work & Hygiene Practices:

- Do not eat, drink or smoke when handling this product. Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing. Do not expose to heat and flame. Use only in ventilated areas. Keep out of the reach of children. Wash unintentional residues with soap and warm water.

#### 7.2 Storage & Handling:

- Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans) away from heat and direct sunlight. Avoid temperatures above 120°F. Keep away from incompatible substances. Protect containers from physical damage. To avoid unintentional spraying keep cap in place when not in use. Keep away from children at all times!

#### 7.3 Special Precautions:

- Spilled material may present a slipping hazard. Clean up all spills promptly.
